Experience

Durvah IT Consulting
Software Engineer

Bangalore, Karnataka
October 2022 – Present

- As a versatile Software Developer with comprehensive expertise in both frontend and backend development, I have successfully delivered around five projects at my company. My work spans the full stack, ensuring seamless integration and optimal performance. On the frontend, I have created intuitive and responsive user interfaces, while on the backend,
- I have developed robust and scalable architectures. My contributions have consistently enhanced user experiences and driven project success, showcasing my ability to manage complex requirements and deliver high-quality solutions.

Vaps Technposoft Pvt.Ltd
Junior Software Development

Bangalore, Karnataka
January 2022 – September 2022

- As a Junior Developer in my previous company, I embarked on a rewarding journey of skill development and confidence building. During my tenure, I tackled both frontend and backend tasks, gaining invaluable experience across a diverse array of projects.
- From crafting user-friendly interfaces to architecting complex backend solutions, I consistently rose to the challenge, including handling some of the most demanding projects. This experience not only honed my technical skills but also deepened my understanding of full-stack development, laying a strong foundation for my future endeavors.

Foxcy System
